I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: My doctor has prescribed a natural progesterone compound which I get from a pharmacy out of my state. This is a place I trust. I found them because I am ethically and morally opposed to hormones obtained through abuse of animals — a practice of many drug companies. I believe that the proposed FDA regulations might prevent me from following my conscience and there be an affront to my freedom of religion, C 2048
